

SHINE

Spoilt for Choice

Over the summer season, as we have attended the numerous shows which we enjoy, there has been a great deal of interest in our 'Find a Car' service.

The idea is simple, if you are seeking to purchase another car or replace an existing one, then we will help with the tiresome leg work that is the pre-cursor to finding a good classic. Just look at any of the motoring press, trade and private classified ads and most popular marques are there in abundance. Many more than could make it easy to select a great car.

So we can, on your behalf, do some of that filtering. A full brief of what you want, make, model, condition, use, budget, colour, specification and originality etc should be given, then we will search and shortlist a number of matches for you to view.

If you require we will then inspect fully the most desired vehicle and provide you with a report on the condition. Should you wish to purchase the chosen vehicle we can negotiate on your behalf to ensure you achieve a good deal. That may not mean just the lowest price, but could take into account some service and repair work and even some on-going warranty and support from the vendors, an important consideration in some cases.

The final outcome is the satisfaction that you end up with the most suitable vehicle available. The added value for you is that you only have to view a small number of cars to get what you want and we are sure that you know, as near as possible, the probable faults and condition of the chassis, bodywork, interior and mechanicals up front.

In the Press

.....If you have missed the press articles, this is what we have been doing

First came the J4 from Practical Classics—that was a long job, for those of you who visited our workshops, you probably saw the amount of work which we did, but it was not wasted. The magazine loved it and we had 4 articles written about the quality workmanship

Then came the XK120 Press Car which was entered in the Mille Miglia 2010, an extensive article has been done about the restoration in the JEC Magazine, however, not much was said about the paintwork which we did on behalf of a Jaguar Restorer. She did look stunning when she left our workshops!

Finally, the editor of Classic Car Mart wanted the Engine Bay of his Volvo Amazon painting whilst he had the Engine being re-built by one of our colleagues. He is currently writing all the articles and should be an interesting read.

A Poem from one of our Customersto her Husband!

My baby she is Pastel blue
Her eyes they shine at night
Her eyelashes are oh so cute
To keep the vision bright
I take her roving far and wide
And tuck her in at night
Then read to her this poem
And all the world feels right
Next day, again together
The countryside we'll tour
With beauty all around us (especially my amour)
We'll often stop to take a break
She sits there what a sight
Then hands caress her cat-like curves
As mine do – to the wife!
I hope that I will long enjoy
'The purr when she is right'
Oh my darling valentine
My Jaguar delight.

XK120 OTS

Exciting events for our cars

What excitement when our car was asked to appear in a clothing catalogue for a sportswear clothing company . She first of all appeared at a Horse Trainers stables then the next day in Cheltenham. She was caressed and taken care of by the models with Graham standing closely by to watch over his baby!

Where are we next....

Our last event of the year is the Classic Car Show at the NEC on the 12-14th November 2010. If you go to the show be sure to come and see us, we are in the Car Sales area.

We also have two more Open Days left this year. Saturday 16th October and Saturday 20th November 2010, 9.30am to 12.30pm. Remember, we are now closed on Saturdays other than for Open Days. Please drop in to see us, you are always welcome

Meet The Team...

This is the newest member of the team, Miah. Hopefully she will not be sleeping on the job. In case you are wondering, Graham and Ruth are too old for this one, but she is Leah and Steve's daughter, born on September 6th and the apple of her Grandparents and Uncle Dans eyes.
